

Luxurious Lighting

The new range of luxury crystal chandeliers from Unlimited Light are manufactured using the finest crystal parts sourced from the premier crystal company with over 60 years experience in manufacturing Bohemian cut crystal products.

While there are other spherical chandeliers on the market using glass or acrylic parts, the Unlimited Light pure crystal chandelier range are visually superior with a dense arrangement of fine cut crystals that exude luxury even without the lights switched on. When the lighting is switched on the quality of the crystals is confirmed once again by the stunning pattern created when the light hits the crystals from above.

With two sphere sizes available, as well as multi-sphere options where 2 or 3 crystal spheres are hung one above the other, these products really are the ultimate in luxurious lighting.

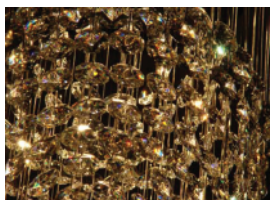

Illuminator

A 100W fiber optic tungsten halogen illuminator, which can be located in the ceiling space above the chandelier. The illuminator feeds a decorative end fitting which is located in the chandeliers ceiling plate, shining down and producing a magical shimmering effect.

The six color wheel which is pre-installed can be left to rotate slowly through the colors or scan be removed to allow for static white light. Optionally a Vaicolor color wheel can be purchased separately allowing you to customise your six colors.

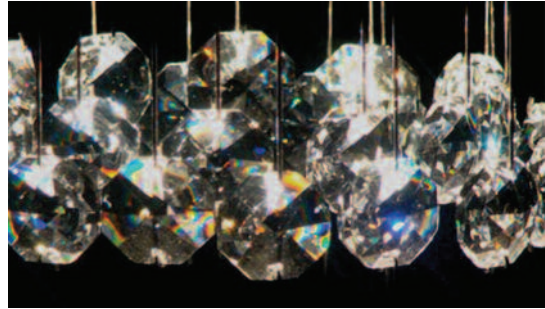

Dimensions: 11.26" (286mm) x 6.1" (155mm) x 4.68" (119mm)

LED Lamp

LED lamp - one lamp is required per crystal sphere - and they are the perfect solution when access above the ceiling is not available for installing a fiber optic illuminator. The lamps are located in the chandelier ceiling plate and are quick and easy to change when required.

Whilst the LED outputs white light only, you can transform your chandelier into any of 14 other colors by fitting a small color filter to it.

Crystals

Pure Bohemian crystals illuminate your world in a uniquely beautiful way, casting shadows and patterns through your home in such a manner that this really does become a show piece with that extra wow factor.

The table below shows the options available.
Stipulation will be required in preference to LED or Fiber Optic illumination.

| Name | Illuminator | Sphere Diameter | Total Drop Length | Power Supply | Uprstand | Illuminator Location |
|-------|-------------|-------------------|-------------------|--------------|---------------|----------------------|
| 750S | LED | 1 x 9.8" (250mm) | 750mm | 1 x 110V AC | 1.38" 35mm | Lamp in upstand |
| 500S | LED | 1 x 9.8" (250mm) | 500mm | 1 x 110V AC | 1.38" 35mm | Lamp in upstand |
| 1000S | 2 x LED | 2 x 9.8" (250mm) | 1000mm | 1 x 110V AC | 1.38" 35mm | Lamp in upstand |
| 1500S | 3 x LED | 3 x 9.8" (250mm) | 1500mm | 1 x 110V AC | 1.38" 35mm | Lamp in upstand |
| 1000L | LED | 1 x 19.7" (500mm) | 1000mm | 1 x 110V AC | 1.38" 35mm | Lamp in upstand |
| 750S | 100w | 1 x 9.8" (250mm) | 750mm | 1 x 110V AC | 1.38" 35mm | Remotely Located |
| 500S | 100w | 1 x 9.8" (250mm) | 500mm | 1 x 110V AC | 1.38" 35mm | Remotely Located |
| 1000S | 100w | 2 x 9.8" (250mm) | 1000mm | 1 x 110V AC | 1.38" 35mm | Remotely Located |
| 1500S | 100w | 3 x 9.8" (250mm) | 1500mm | 1 x 110V AC | 1.38" 35mm | Remotely Located |
| 750L | 100w | 1 x 19.7" (500mm) | 750mm | 1 x 110V AC | 1.38" 35mm | Remotely Located |
| 1000L | 100W | 1 x 19.7" (500mm) | 1000mm | 1 x 110V AC | 1.38" 35mm | Remotely Located |
