

## Sauna Star Ceiling Kits

These complete LED driven fiber optic Star lighting kits have been designed to allow you to achieve a soothing color-changing ambience, or a static starry night effect. The Sauna Star Kit is easy to install and maintain. Only one LED is used to light all of the fiber optic tails and star fittings, ensuring it always provides an even light.

This kit is safe for use in wet and humid areas as no electricity is present in the fiber optics or fittings, but the illuminator unit must be located outside the main sauna building unless an optional waterproof enclosure is purchased.

The Sauna Star Kit is manufactured with 1.0mm glass fiber optic tails. A FREE Extra 3mm fiber optic tail is included with the larger kits. This allows you to produce a brighter down-light effect on your sauna heater.

Product Code	Sauna cabin size (m <sup>2</sup> )	No of Fibers	Length of tails all 1mm glass, unless specified otherwise	End fittings
SSC50	2-4	50	15 x 4.92', 15 x 6.84', 20 x 8.2'	50 Gold bezels. Silver and white options also available

SSC100	4-8	100+1	15 x 9.84', 20 x 11.48', 20 x 12.12', 20 x 14.76' +3mm glass 1 x 16.4'	100 Gold bezels. Silver and white options also available. 1 stainless fitting for 3mm tail

## Sauna Lighting Kits

These fiber optic lighting kits have been designed to be installed into the walls and seating of your sauna cabinet, and provide an ambient uplight or downlighting effect.

The fittings are manufactured from stainless steel and easy to clean and maintain.

Like the star ceiling kit above, this kit is safe for use in wet and humid areas as no electricity is present in the fiber optics or fittings, but the illuminator unit must be located outside the sauna building unless an optional waterproof enclosure is purchased.

The Sauna Lighting Kit is manufactured with 3.0mm glass fiber optic tails for an extra bright lighting effect.

Product Code	Sauna cabin size (m <sup>2</sup> )	No of fibers	Length of tails all 3mm glass unless specified otherwise	End fittings
SL5	2-4	5	1 x 8.2', 2 x 9.84', 2 x 11.48'	5 x stainless steel fittings
SL8	3-6	8	3 x 9.84', 3 x 11.48', 2 x 13.12'	8 x stainless steel fittings
SL12	5-10	12	2 x 6.56', 3 x 9.84', 3 x 11.48', 2 x 13.12', 2 x 16.4'	12 x stainless steel fittings

## Illuminator Information

All kits are supplied as standard with a color changing LED illuminator which can be controlled by two buttons on the rear of the unit.

The illuminator is capable of static colored output or can cycle through seven colors at a choice of three speeds.

An upgrade is available to a fully remote controlled LED illuminator. This allows full control over color cycling and static colored output.
