**Bringing light to life**

There are two types of sensory lighting kits available from Unlimited Light – Color-Changing and Ultraviolet. The harnesses in both of these kits are completely safe to touch, as no electricity runs through the tails. The fiber optic side glow is also effective as decoration in commercial properties such as bars, restaurants or cafes, though the benefits are equally enjoyable in the home. These kits are fully UL approved and have CPSIA and EN71 Toy Cetifications.

Color-Changing Sensory Kit

The color-changing kit consists of PMMA fibers in a clear sleeve, cracked to leak light out of the sides. These sensory lighting kits produce a magical sparkle effect.

It is primarily used in sensory or treatment rooms in hospitals and schools, where the colorchange property stimulates the minds of the users. It also helps in learning to identify colors, and is beneficial to children of any age with learning difficulties.

Illuminator
75W tungsten halogen unit with 1 plug.
As standard these illuminators output continuously changing colors. The colorwheel can be removed to allow for static white light output.

Dimensions: 5.4" (L) x 4.5" (W) x 2.9"(H)

LED Illuminator
Optionally, you can also choose either of our new LED illuminators.

The MicroLED 4000 measures only 5.4" (L) x 4.5" (W) x 2.9"(H) yet features full remote control operation which allows you to control the light color and color-cycling effects from the comfort of your armchair.

Alternatively, opt for the MicroLED 1000. This tiny but powerful unit features color cycling and static color output. Measures only 5.2" (L) x 3.8" (W) x 2.6" (H)

Both LED illuminator options are completely silent in operation.

Fiber optic harness
Fiber optic sidesparkle sensory harness start at 100 tails and go up to 200.
Lengths are from 1.0m to 4.0m.

Name	Standard Illuminator	Number of Tails	Harness Length	Power Supply	Environment
SE1001	75W	100	100 x 3.28' (100 x 1.0m)	One 110v power supply	Indoor/ Dry
SE1002	75W	100	100 x 6.56' (100 x 2.0m)	One 110v power supply	Indoor/ Dry
SE1003	75W	100	100 x 9.84' (100 x 3.0m)	One 110v power supply	Indoor/ Dry
SE1502	75W	150	150 x 6.56' (150 x 2.0m)	One 110v power supply	Indoor/ Dry
SE1503	75W	150	150 x 9.84' (150 x 3.0m)	One 110v power supply	Indoor/ Dry
SE2002	75W	200	200 x 6.56' (200 x 2.0m)	One 110v power supply	Indoor/ Dry
SE2003	75W	200	200 x 9.84' (200 x 3.0m)	One 110v power supply	Indoor/ Dry
SE2004	75W	200	200 x 13.12' (200 x 4.0m)	One 110v power supply	Indoor/ Dry
