

Bring splendor and magic to your nights

These amazing star deck lighting kits comprise of inconspicuous miniature acrylic heads that are almost invisible when not in use. Come the evening you can switch on these deck lighting kits and watch heads turn.

These deck lighting kits are also ideal for creating magical effects in the floor of children's bedrooms or play areas. The effect from these deck lighting kits is truly stunning, especially when used with a twinkle effect.

These lighting kits are typically installed in: wooden floors, wooden decking, paving, pathways, interior and exterior steps and stages. Tails of these deck lighting kits can be installed in cement, between paving slabs, stones or even in the grout between tiles.

These deck lighting kits also come supplied as standard with a water resistant enclosure to allow for the light source to be sited outdoors - typically underneath your decking.
